

# Carbon Reduction Charter

**Claret Civil Engineering Ltd is committed to a significant and ongoing reduction in our company's carbon emissions, not just for the benefit of the business but for the communities we work in and the future generations who will be affected by our actions.**

We pledge to achieve this by:

- The Managing Director and all other company Directors have made a commitment to the development of a carbon reduction scheme.
- We will communicate all our environmental impacts, including the carbon footprint of our business and our partners to our employees.
- We will aim to continually improve our environmental impact and actively welcome new ideas for carbon reduction, through ongoing assessment and review.
- We shall develop our Environmental Policy to reflect these commitments and refer to them in our Corporate and Social Responsibility Policy.
